The Pennsylvania Public School Code requires school health services for all children of school age, regardless of the school setting. **Please refer to the above table for PA mandated state screening requirements for your child. We have listed the requirements by grade.**

Please note, in the state of Pennsylvania all public school children must receive YEARLY health screenings (Height, Weight, & Near & Far Vision). The school nurse is able to provide the mandated health screenings, however, a license provider must do a physical exam (required for grades 6th and 11th).

Immunization Requirements

All Immunizations **must be completed within the first 5 days of school.**

Please access the following link for the PA department of Health's School Requirements effective 2017-1018.
