The Pennsylvania Public School Code requires school health services for all children of school age, regardless of the school setting.

Please note, in the state of Pennsylvania all public school children must receive **YEARLY** health screenings (Height, Weight, & BMI), Near & Far Vision screenings are required every 2 years. The school nurse is able to provide the mandated health screenings, however, **\*a licensed provider must do a physical exam** (required for grades 6<sup>th</sup> and 11<sup>th</sup>).
